Faculty Training

- Human Subjects
- Animal Subjects
- COI
- myNCBI

Research Administration Training

- Introductory Webinars
- Budget Workbook Training
- REMS Exception Training
- eProposal Training (Sessions I and II)
- CACTAS Training
- RA-101

Faculty Training

Human Subjects

All UCSF key personnel conducting human research must complete human subject’s protection training through an online program called the Collaborative Institutional Training Initiative (CITI). Review the FAQs about CITI Training for registration instructions and training details.

CITI also offers training on Responsible Conduct of Research (RCR).

UCSF's Committee on Human Research (CHR) offers training for human research proposal application and management.

Animal Subjects

UCSF's Institutional Animal Care and Use Committee (IACUC) provides training in the care and use of animals for faculty and others involved in animal research.

Conflict of Interest (COI)

UCSF researchers must comply with federal, state and University regulations and policies regarding financial conflicts of interest and are required to report their COI status via COI Smart (available via MyAccess). See the COI Smart website for information on reporting
procedures.

For access to COI Smart, please contact coiac@ucsf.edu

**MyNCBI**

MyNCBI is a tool for faculty to save their citations (including journal articles, books, meetings, patents and presentations) in My Bibliography in order to maintain compliance with NIH Public Access Policy.

View the webinar to learn more about how to update your citations in MyNCBI.

You can download the presentation here.

For additional information on the NIH Public Access Policy, UCSF faculty and staff with a MyAccess login may watch the UCSF Library’s July 2014 presentation.

Slides to this presentation may be downloaded here.

---

**Research Administration Training**

The Office of Sponsored Research (OSR) provides onboarding and ongoing training for Research Management Services and Government and Business Contracts staff. A limited number of spaces are available for Department Staff to audit the training courses. See below for descriptions of the training courses and for registration links.

**Introductory Webinars**

**Webinar #1: The OSR Organization (.swf format) or (.mp4 format)**

- Who We Are - the OSR Organization
- Groups that Support Extramural Funds
- Role and Responsibilities of the RSC

**Webinar #2: The Granting Process (.swf format) or (.mp4 format)**

- Grant Process Overview
- Grant Process Roles and Responsibilities
- Application Components

**Budget Workbook Training (offered 1st Thursday of the month)**
Please go here to register

- General Introduction to Budgets
- Create a budget using the RMS (Research Management Services) excel budget workbook template.

REMS Exception Training (offered on the Friday following the Budget Workbook Training)

Please go here to register

- University Policy for Full Recovery of Indirect Costs
- Requesting Exception to the University's Policy for Full Recovery
- Preview of Research Enterprise System (REMS) - available for authorized users only

eProposal Training (Session I offered 2nd Thursday of the month, Session II 3rd Thursday of the month)

**Session I** - Please go here to register

- Overview of eProposal system
- Complete an uploaded Sponsor Packet proposal
- Complete a basic budget
- Route for PI, Chair and AOR approvals
- How to ?Submit to Sponsor? in eProposal

**Session II** - Please go here to register

- Complete a detailed budget
- Complete a system to systems proposal
- Submit to Grants.gov

CACTAS Training (Offered 4th Thursday of the month)

Please go here to register

- Overview of CACTAS system
- How to create a view
- Complete a JIT CACTAS record (initiating COI review)
- Complete a New Award CACTAS record
- Overview of other Award activities in CACTAS
- How to send emails
RA 101 (8 week course offered 3 times a year)

Please go here to register.

1. Introduction to Proposals and Building Budgets
